
AT A GLANCE

RACKUSA

STORAGE SYSTEMS = RACKING = SHELVING

ABOUT OUR COMPANY

For over five decades, **Rack USA** has set the standard in storage system innovation. As a family-owned Mexican business, we have served more than 100 clients across the Americas with engineered solutions that reflect our commitment to trust, precision, and performance. Our reputation is built on enduring partnerships and a relentless drive to optimize space, safety, and scalability.

Our Mission:

Rack USA designs, manufactures, and delivers innovative, high-quality storage solutions that prioritize safety, exceed customer expectations, and align with each client's operational needs and resources.

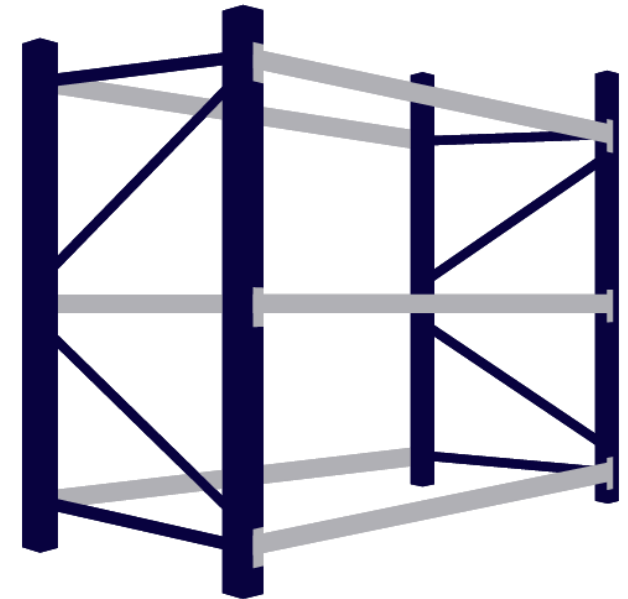

Continuous improvement is embedded across all functions, driving exceptional quality in every product, process, and partnership.

WHY RACK USA

We view every project as an opportunity to solve real-world challenges with precision, innovation, and integrity. Our goal is not just to deliver products—but to earn your trust through performance, partnership, and results.

What Sets Us Apart:

- **Direct access to experienced sales and engineering teams**—trained to deliver accurate, results-driven solutions
- **Strategic partnerships**, trusted material vendors, service providers, and distributor allies
- **Certified, high-quality products** built to code and seismic standards
- **Comprehensive portfolio of products and services** for end-to-end solutions
- **Customizable, scalable solution designs** tailored to your space & workflow
- **Competitive pricing** for all your project
- **Flexible lead times** to meet your schedule
- **Reliable, on-time delivery**—every time

OUR CERTIFICATIONS

Long standing member of MHI:

The Material Handling Industry is "the Industry that makes the Supply Chain Work".

Proud members of the Rack Manufacturers Institute

Our products are RMI R-MARK Certified: #5190

Recipient of the City of Los Angeles manufacturing license:

Allows us to design and manufacture earthquake-resilient storage systems

International NSF Certification:

Confirms that our products comply with public health and safety standards

D.U.N.S. certification:

Allows our future business partners, suppliers, and lenders to quickly identify our company as a trusted and reliable supplier partner

Engineering Backed by Seizmic, Inc.

At **RACK USA**, every structural design is independently validated by **Seizmic, Inc.**—a nationally recognized authority in storage engineering and seismic compliance.

This third-party certification ensures that our system designs meet or exceed U.S. building codes and seismic standards, allowing us to deliver uncompromising structural integrity ensuring your total confidence in our product performance and safety.

MANUFACTURING CAPACITY & TECHNOLOGY

MFG & HQ:

Torreon, MX: Piedras Negras 185 Parque Industrial Lagunero,
35070 Gomez Palacio, Durango, MX

CAPACITY:

(3) Production & Storage Facilities

- w/ ~294,000 sqft. of space

TECHNOLOGY:

Coil Slitter (1)

Wire Drawing Machines (4)

Roll-Forming Lines (9)

Press-Brakes (7)

Punch-Presses (9)

Tool & Die Shop (1)

Powder Coating Lines (3)

Multi-Spot Welders (3)

Welding Machines (40)

Guillotines (2)

20t-Forklifts (2)

3t-Forklifts (4)

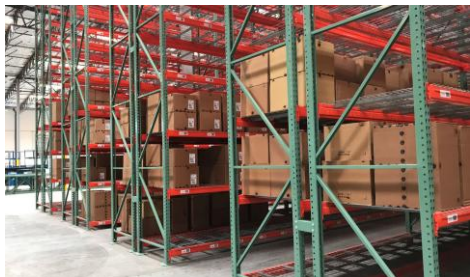

SCOPES AND SERVICES

We have a team prepared to provide:

- Targeted designs for every need
- Seismic-Factor Analysis and Calculations
- Structural Calculation Reports
- Readaptation of storage systems for new projects
- Purchase of used racks (project quantities only)
- Installation services and movement of storage systems
- Consulting and audits on products and installations
